DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3-11-2005 has been entered.

Election/Restrictions

2. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claim 4, directed to the species 2 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

3. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

5. Authorization for this examiner's amendment was given in a telephone interview with William Brooks on 4-14-2005.

The application has been amended as follows:

In the claim

In line 3 of claim 15, after "30%" please insert "--by volume--".

In line 3 of claim 26, after "30%" please insert "--by volume--".

Allowable Subject Matter

6. Claims 1-40 are allowed.

7. The following is an examiner's statement of reasons for allowance: The reason for allowance of claims 28-37, 40 was discussed in previous office action. Respect to claims 1-27, 38-39 the cited prior art fail to disclose either one of the following limitations in conjunction with all other limitation in the claim: wet etching the InP convex structure using an anisotropic etchant including hydrochloric acid and acetic acid; or anisotropic etching a surface of the third semiconductor layer made of InP by etchant including hydrochloric acid and acetic acid. The prior art Tsukiji et al. (US 5,441,912) teaches to etch InP layer using isotropic etchant.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
